

HIGH WIRE DISTILLING CO.

Located in the heart of historic downtown Charleston, SC, High Wire Distilling Company is dedicated to making premium, southern, small batch spirits. Their approach is simple: seek the finest ingredients available and develop recipes using a creative, culinary approach.

Founded by husband and wife team, Scott Blackwell and Ann Marshall, High Wire is producing a distinctive line of small batch spirits comprised mainly of gins and whiskeys using premium, specialized ingredients, local when possible, but always the highest quality. Scott, a Culinary Institute of America trained baker, applies his knowledge of artisanal grains and yeasts to create well-rounded, flavorful spirits. In addition to their core products, High Wire works with small farms each year to produce limited edition spirits, such as a 100% SC produced rum agricole and single source southern eaux de vie.
