

HUDSON VINEYARDS

Founded in 1981, Hudson Vineyards is situated deep in the heart of the gently rolling hills of Napa Valley's Carneros District. The property was originally known as Talcoa Vineyards, an Indian name meaning 'laughing land' for the constant and cooling winds that undulate the land throughout the year. One of the finest grape growing regions in the United States, Carneros receives cool breezes off the Bay of San Francisco that allow the grapes a longer hang time in which to develop flavor and intensity, without sacrificing acidity and balance.

Hudson Vineyards is owned and operated by Lee and Cristina Hudson. Lee & Christina maintain an intimate relationship with the land, and eco system. The Estate's year-round 35-person team collectively manages the farm's biodiversity, supporting its polyculture from planted trees to native grasses and cover crops, including bird boxes to beneficial insects. The farm has a fully functioning and burgeoning CSA program as well.

The wines are made in a traditional classic manner by John Kongsgaard, and Christopher Vandendriessche from White Rock Vineyards, where the wines are made. These classic wines speak to heritage and to a sense of history and of place.

As the proprietor of Hudson Vineyards, Lee Hudson has transformed his land into one of today's most highly esteemed vineyards. Born and raised in Houston, Texas, Lee received his B.S. in Horticulture at the University of Arizona, before working with the esteemed Jacques Seysses of Domaine Dujac in Morey St. Denis, Burgundy. It was here that he first learned that great grapes from hallowed vineyard sites produce truly world class, fine wines. Upon returning to the United States, Lee studied viticulture and enology at University of California at Davis, where many of his classmates are now his clients. Many esteemed producers don the name of Hudson vineyard designate on their labels (including Arietta, Bedrock Wine Co., Cakebread Cellars, Darioush, Duckhorn, Kistler, Kongsgaard and Ramey Wine Cellars), in addition to producing three estate white varieties and seven red, all vinified with holistically farmed fruit.

SYRAH

Varietal/Blend: 100% Syrah

Farming: sustainable, holistic polyculture

Soil: decomposed granite and clay

Ave Year Vines Planted: 1999

Yeast: indigenous

Fermentation: whole cluster fermentation / two week maceration
/ finishes in French Billon barrels

Malolactic: full ML

Aging: aged in French oak until bottling in April

Alcohol: 14%

Acidity: pH: 3.97 // TA: 6.1g/l

Fined: No

Filtered: No

Production #s: 50 cases

Red plum, black tea and a hint of pepper on the nose. The deep core of dark cherry fruit exudes a mid-weight richness that offers savory notes without heaviness. Bright acid and dusty tannins.

Country: U.S.

Region: Napa Valley

Sub Region: Carneros
