

## ROBERT SINSKEY

Rob Sinskey believes that making luxuriously elegant wines and farming with earth friendly methods are not mutually exclusive. Rather, he has found that caring for the land organically, combined with conscientious business practices (including a solar powered winery, using biodiesel from used restaurant oil in tractors and trucks, and having sheep and chickens mow the cover crops) have helped define the well-crafted wines of RSV.

After 20 years, his philosophy that "Wine is not an athletic event" still holds true to this day. The goal has always been to make "pure wines of character that pair well with cuisine." RSV is spreading the gospel that organically grown grapes produce fine wines of great individuality.

RSV's holdings have grown from 15 to over 200 acres of CCOF certified organic and Demeter certified Biodynamic vineyards in five Carneros locations (Three Amigos, Vandal, OSR and Capa in Napa Carneros and the Scintilla Vineyard in Sonoma Carneros) with a small estate vineyard behind the winery in the Stags Leap District.

"Orgia is a trip. A bright, vibrant wine with the initial impression of a white and the gravitas of a red. The wine has a beautiful copper hue gleaned from skin contact during fermentation. The aroma is effusive with a wonderful medley of orange blossom, honey, crisp apple, and tea. The aroma follows through on the palate with the added impression of saltiness that implies this wine would be incredible with seafood. The tannin from the skin contact is apparent and lends the wine a mineral weightiness with incredible depth and length that just keeps going *further*, suggesting this wine will age gracefully for generations" More at [RobertSinskey.com](http://RobertSinskey.com)
