

ENFIELD WINE CO.

Enfield Wine Co. was founded in 2010 by John Lockwood. Over the past 10 years, John cut his teeth in the winemaking world with some of the most esteemed vineyard sites and producers in California. John has worked under winemakers such as David Mahaffey, Ted Lemon, and Ehren Jordan, where most recently he was responsible for farming the Failla Sonoma Coast and Russian River properties for the past 5 years.

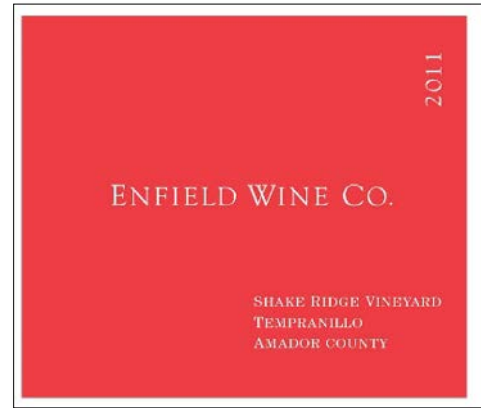

John Lockwood: Heron Lake Vineyard, Wild Horse Valley, 2013

John's purpose in Enfield is to do his part in the work of building California Terroir and the next generation of American winegrowing. Lockwood is sourcing grapes from sites both traditional and experimental where the exciting possibilities of soil and climate meet the hands of exceptional growers. His goal is to produce articulate wines of "personality and character" from a broad range of sites around California, with an emphasis on the balance of elegance and power.
